# Floor Systems

## Mezzanine

Regis Consulting combines the latest rollformed and hot-rolled steel technology and componentry to provide a structurally adequate yet aesthetically pleasing mezzanine floor. Standard floor load rating is 5kpa.

- Every floor is individually designed and tailored to suit our clients needs.
- To achieve specified fire rating's; Regis Consulting installs a composite floor system made of concrete flooring in lieu of structural plywood. Lightweight joists and bearers supported by steel posts, this systems is economical and can achieve a fire rating up to 4 hours.

## About

When Regis Consulting was started back in 2003, we had a vision to become the premier Self-Storage Building contractor in Australia and New Zealand. Since that time, we have managed to become just that... a leader.

By setting the highest standards in the industry, we are truly “building the future of self-storage” through unsurpassed quality and service.

- **People:** Our people are the source of our strength. We encourage individual initiative.
- **Products:** Our products are the result of our efforts and reflect who we are.
- **Customers:** Our Customers are the reason we exist. They are the focus of everything we do. Until the customer is satisfied, our job is not finished.
- **Change:** Change is not a destination, but a journey. We believe in continuous self renewal.
- **Integrity:** We will conduct business at all times in a socially responsible and ethically correct manner.
